Biographical sketch

Drew E. Winters, PhD. is a post-doctoral fellow at the University of Colorado Anschutz Medical Campus in the department of Psychiatry under the Developmental Psychobiology and Behavior T32 program. His research focuses on brain and behavior mechanisms underlying neurocognitive and socio-affective processes with an emphasis on adolescents with callous-unemotional traits. In this vein, this work aims to identify replicable neural mechanisms that may improve development and testing of interventions for youth with callous-unemotional traits.
